

Nitin Kumar Prajapati (Detailed one)

 nitinkumarprajapati291@gmail.com  9650598667

 LinkedIn: [linkedin.com/in/nitin-analytics](https://www.linkedin.com/in/nitin-analytics) |  GitHub: github.com/cl291-ctrlb/Constant_analyst

◆ Education

 Bachelor of Computer Applications (BCA) – Online (Semester 4)

Vignan Online | Expected Graduation: 2026

 BSc Mathematics Honours (Semester 2)

Delhi University | In Progress

◆ Technical Skills

Excel

- Basic Arithmetic Operations: +, -, *, /
- Common Functions: SUM, AVERAGE, COUNT, MAX, MIN, IFS, LEN, SUBSTITUTE, COUNTIF, DAY, NETWORKDAYS, XLOOKUP (multiple rows, exact match, search order, horizontal, with SUM), VLOOKUP
- Logical Functions: IF, AND, OR, NOT
- Text Functions: CONCATENATE, LEFT, RIGHT, MID, TRIM
- Date Functions: TODAY, NOW, DATE, DATEDIF, YEAR, MONTH, DAY
- Lookup Functions: VLOOKUP, HLOOKUP, INDEX-MATCH
- Data Analysis: Sorting, Filtering, Conditional Formatting
- Charts: Bar, Line, Pie, Scatter (with customized titles, labels, legends)
- Pivot Tables: Creating and Customizing Pivot Tables

- **Advanced Formulas:** IF, SUMIF, COUNTIF, IFERROR

SQL Essentials

- **Querying Data:** SELECT, WHERE, IN, BETWEEN, LIKE, IS NULL, REGEXP
- **Modifying Data:** INSERT, UPDATE, DELETE
- **Logical Operators:** AND, OR, NOT
- **Sorting & Limiting Data:** ORDER BY, LIMIT
- **Joins:** INNER, OUTER, SELF, NATURAL, CROSS, UNION
- **Aggregate Functions:** MAX, MIN, AVG, SUM, COUNT
- **Grouping Data:** GROUP BY, HAVING, ROLLUP
- **Complex Queries:** Subqueries, Views, Window Functions, Common Table Expressions (CTEs), Temporary Tables
- **Stored Procedures & Functions**
- **Triggers & Events**
- **Transactions:** BEGIN, COMMIT, ROLLBACK, Transaction Isolation Levels
- **Database Design:** Normalization, Primary & Foreign Keys, Constraints, Indexes
- **Security & Permissions:** Managing Users & Privileges

AWS Services

- **S3 Buckets**
- **Amazon Athena**
- **AWS Glue & Glue DataBrew**
- **Amazon QuickSight**

Azure Services

- Storage Accounts
- SQL Databases
- Azure Data Factory
- Azure Synapse Analytics

Python

- Variables & Data Types
- Loops: `for`, `while`
- Conditional Statements: `if`, `elif`, `else`
- Functions & Scope
- Arrays, Lists, Tuples, Sets
- Stacks & Queues
- Dictionaries
- Comprehensions (List, Dict, Set)
- Generator Expressions
- Classes & Objects
- Inheritance & Polymorphism
- Handling Exceptions with `try/except`
- Raising Exceptions
- Lambda Functions `map()`, `reduce()`, `filter()`
- Creating Modules
- Managing Packages with `pip` and `pipenv`
- Virtual Environments
- Working with Paths, Files, and Directories
- Handling CSV & JSON Files
- Working with Date/Time
- Generating Random Values
- Pandas
- NumPy
- SciPy

Git & GitHub Essentials

- Setup & Configuration: `init`, `clone`, `config`
- Staging & Committing: `status`, `add`, `rm`, `mv`, `commit`, `reset`

- **Inspect & Compare:** `log`, `diff`, `show`, viewing commit history
- **Branching:** `branch`, `checkout`, `merge`
- **Remote Repositories:** `remote`, `fetch`, `pull`, `push`
- **Temporary Commits & Changes:** `stash`, skipping the staging area, unstaging files, discarding local changes
- **File Management:** renaming/moving files, removing files, ignoring files
- **GitHub Workflow:** forking, pull requests, code reviews
- **Viewing Changes:** short status, staged & unstaged changes, viewing a commit

Data collection and Preparation:

- Numpy (numerical computing)
- Pandas (data manipulation)
- BeautifulSoup (web scraping)
- Scrapy (web scraping)
- Importing data from CSV, Excel, and JSON files
- Connecting to databases
- Using APIs to collect data
- Web scraping
- Handling missing values
- Removing duplicates
- Finding outliers
- Data transformation
- Converting data types (text to numbers, dates, etc)
- Parsing and splitting data (text to columns)
- Standardizing data formats (uppercase, lowercase, date formats)
- Data Integration • Combining data from multiple sources

Data Visualization & BI Tools

- **Python Libraries:** Matplotlib, Seaborn
- **BI Tools:** Tableau, Power BI
- **Charts & Graphs:** Bar Charts, Line Charts, Scatter plots, Histograms, Stacked Charts, Heatmaps,
- **Advanced Features in BI Tools:**

Calculated Fields & Bins

Joins, Power Query Editor

Creating & Managing Relationships

DAX (Data Analysis Expressions)

Drill Down & Drill Up

Conditional Formatting, Lists & Bins

- **Dashboards:**
 - Creating Interactive & Dynamic Dashboards
 - Storytelling with Data (Insights & Narrative Creation)

Mathematics and statistics:

- Eigenvalues and eigenvectors
- Probability distributions (normal, binomial, poisson)
- Skewness and kurtosis
- Quartiles and percentiles
- Hypothesis testing • Confidence intervals • p-values • T-tests and chi-square tests
- Analysis of variance ANOVA
- Simple linear regression • Multiple linear regression • Logistic regression

Pandas (Data Manipulation & Analysis)

- **Reading Files** (CSV, Excel, JSON)
- **Filtering Data** (Columns & Rows)
- **Indexes** (Setting, Resetting, Multi-indexing)
- **Grouping & Aggregation** (`groupby()`, `aggregate()`, `apply()`)
- **Merging & Joining DataFrames** (`merge()`, `concat()`, `join()`)
- **Visualization** (Using Pandas' built-in plotting, Matplotlib, Seaborn)
- **Exploratory Data Analysis (EDA)**
- **Data Cleaning** (Handling missing values, duplicates, outliers)

Web Scraping & Supporting Skills

- **Inspecting Web Pages & HTML**
- Using `requests` & `BeautifulSoup`
- **Finding & Extracting Data** (`find()`, `find_all()`)
- **Handling Pagination & Dynamic Content**
- **Exporting Scraped Data** (CSV, Excel, JSON, Database)

◆ Projects

Amazon Web Scraping Using Python

- Built a web scraper using BeautifulSoup & Requests to extract product data from Amazon
- Cleaned, processed, and structured the extracted data for insightful analysis

Data Analytics Practice & Documentation

- Completed hands-on training in SQL, Excel, Pandas, Power BI, and Tableau
- Sharing recorded sessions and insights on LinkedIn

Kaggle Dataset Analysis (In Progress)

- Working on real-world datasets for data cleaning, visualization & insights using Power BI & Tableau
-

◆ Certifications

Data Analyst Bootcamp – Alex Freberg (Completed)

◆ Additional Information

- ✓ Active on LinkedIn, sharing data-related projects and insights
- ✓ Passionate about data-driven decision-making and automation
- ✓ Open to data analytics and business intelligence roles
